The Twin Cities

LINUX USER GROUP

presents

INSTALLFEST

Saturday, October 2, 1999
11 am - 5 pm
In the Great Hall of Coffman Memorial Union
On the U of M Campus
Its Completely FREE!!
All are Welcome!

What is INSTALLFEST??

The TCLUG Linux Installfest is your chance to get the award winning, powerful, free, and stable Linux operating system installed on your computer for no charge. Simply bring in your computer, and we will put Linux on it for you, or help you install it yourself, and tailor it as much as possible to your desires. You do not have to give up your existing operating system to install Linux. That is, if you already have Windows on your computer, you can have Linux installed, too, and then decide at boot time which one you want to use.

Even if you are just curious about Linux, stop by to find out more about it!
